

HARMON GUEST HOUSE

A Breath Of Fresh Nordic Air
Has Blown Into Healdsburg

CIRCE SHER AND PAOLO PETRONE of Piazza Hospitality are the team behind two other area acclaimed properties Hotel Healdsburg and H2hotel, their new 39 room ode to style and efficiency is their most design forward with Nordic DNA designed by David Baker Architects of San Francisco. The whole aesthetic experience is very thoughtful from the moment you arrive in the lobby, continuing on to your room. The room amenities include a red espresso machine, complimentary snacks and milk bottles of purified water and being a packaging and graphic design nut, I loved the branding throughout including the charming small notebooks. The rooftop deck and lounge deliver a small but mighty menu, standouts; Yellowfin Tuna Crudo The Rooftop Louie, Maine Lobster Roll and Lamp Pops. **CH**
